## The 83<sup>th</sup> china international medical equipment fair

October 19 to 22, Saikang Medical has actively participated in CMEF at Nation Exhibition and Convention Center(Shanghai). Due to the impact of international epidemic condition, most visitors are from our own country. Even so, our salesmen were still very positive in explaining products for every visitor coming to our booth.

CMEF is the largest international medical equipment fair in China. Saikang thinks of it as the great platform to promote effective products to fight the epidemic. To see is to believe. Every visitor could have a good understanding of our latest products with the explanation of our colleges. Besides, product catalogue can be picked up for reference. Some visitors believe in our high quality products, and are willing to have a group photo together with us on booth. We are proud that many friend trust us so much and approve of efforts we make for about 20 years.

2020 CMEF ended perfectly in October. We gained a lot during three days at Shanghai CMEF booth. Although some friends have few chances to come to our booth, we still supply special promotion on social media from time to time. We are happy to meet you again in 2021.

# In brief

## Team activity in November 28-29, 2020

We spent two days on team building in this marvellous mountain. We experienced “learning by doing” through several exciting and interesting activities, like curling competing in groups, along with good shows from 6 groups in the first day. One night in mountain, happy and peaceful. On the next day, we needed to finish 6 tasks while we were doing mountain climbing and enjoying beautiful scenery. Finally, group 2 and 5 achieved the highest scores. All of us felt a lot that together we can do better and do more.
