HOSPITALAR 2024

The 29th Brazil International Medical Equipment Exhibition in 2024 was held at the Sao Paulo International Convention and Exhibition Center in Brazil. It is the largest and most comprehensive medical industry exhibition in the Latin American market.

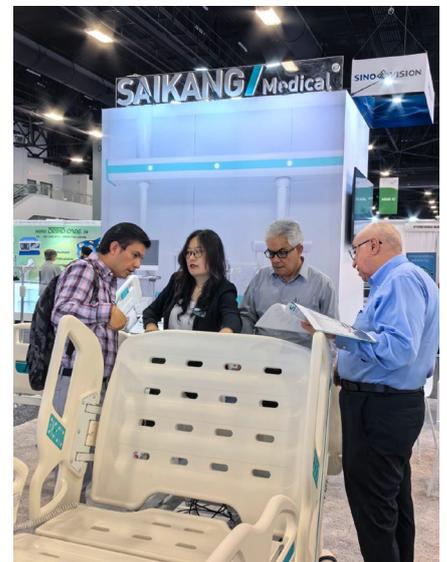

Our booth at HOSPITALAR featured a range of cutting-edge products including hospital beds, medical carts, and therapy chairs. We were delighted by the enthusiastic response from healthcare professionals and industry experts who visited us. They were particularly impressed by the advanced features and ergonomic designs that our products offer, ensuring both patient comfort and clinical efficiency.

Saikang Medical's Triumph at FIME

In June 2024, Saikang Medical participated in the FIME exhibition held in the United States, which is an important professional exhibition of medical equipment and instruments in the southeastern United States.

It provides us with a platform to showcase technological innovation and product advantages. During the exhibition, Saikang Medical established in-depth cooperative relationships with customers in the United States and other regions, which promoted Saikang Medical's strategic layout and business growth in the North American market.

Customer visiting

In recent months, Saikang Medical has had the privilege of welcoming esteemed guests from various countries for facility tours. These visits have provided our visitors with insights into our advanced medical equipment manufacturing processes and our commitment to quality and innovation.

We are deeply grateful to each customer who took the time to visit us and engage in meaningful discussions about healthcare advancements. Their feedback and perspectives have been invaluable in shaping our future directions.

Saikang Medical is committed to continuously improving our products and services to meet the evolving needs of our international clientele. Our doors are always open, and we eagerly anticipate the opportunity to showcase our capabilities and forge lasting partnerships.

Thanks for **your trust!**

A private clinic in Chile focused on healthcare services, especially hemodialysis treatments. They needed comfortable and efficient chairs for their hemodialysis room.

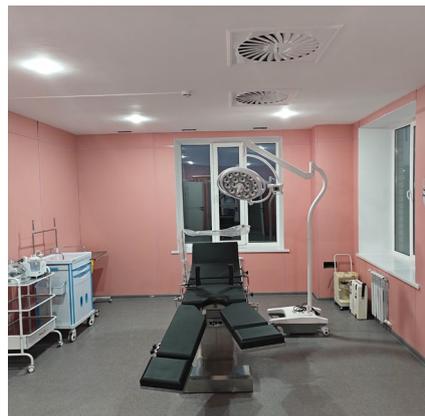

Private clinic

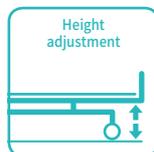

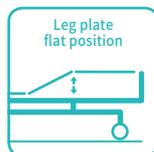

We supplied 15 specialized dialysis chairs designed for comfort and functionality during treatments. These chairs met strict medical standards and ensured a better experience for patients undergoing dialysis.

The clinic is a private healthcare facility known for advanced surgical services in Kazakhstan. Saikang supplied surgical pendants, medical lamps, operating tables, trolleys and other products to enhance their surgical suite. These upgrades supported their high standards and operational needs.

Private Clinic

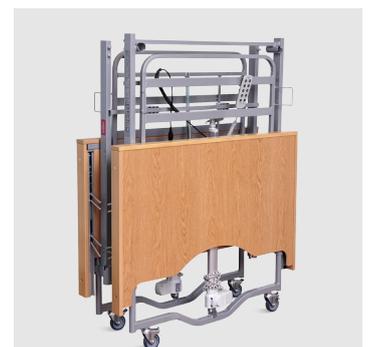

SK-HD01

ELECTRIC HOMECARE BED

Size (LxWxH): 2140 × 1055 × 190-610 mm

Lowest height 190mm from the ground, to prevent accidental falls from the bed.
The head and foot boards are made of laminate and solid beech wood, providing strong stability while being lightweight.

SK-CHD01

Super Low Children bed

Size (LxWxH): 2080×930×190-610 mm

The whole bed can be folded for transportation, safe and comfortable. Easy to place and can be folded when not in use.

Wooden-edged guardrails maximize patient safety and prevent falls. The guardrail is lowered to facilitate patients to stand up and sit on the bed.

YLS-02

Levitation Nursing Bed

Size (LxWxH): 2395×1110×525-970 mm

Through patented levitation technology, bedridden people do not need to get out of bed. Nursing staff can easily switch to the bathtub with one-touch remote control, realizing full-body bathing in bed with little effort and worry.

One-touch operation to start leg and back movement, 100 cycles as a set, effectively preventing health problems such as muscle atrophy and venous thrombosis faced by the elderly during long-term bed rest. During the automatic cycle of the elderly, family members do not need to operate frequently, saving time and effort.

In brief

Canton Fair 2024

As one of the largest international trade exhibitions in China, the Guangzhou International Medical Equipment and Instruments Fair (Canton Fair) attracts many medical industry suppliers from all over the world every year.

At the 2024 Canton Fair, Saikang Medical fully demonstrated its extensive product lines and service capabilities.

MEDITECH 2024

Saikang Medical had the privilege of participating in MEDITECH 2024, where we presented our latest innovations in medical technology.

The event provided an excellent platform to engage with industry professionals, share innovations, and explore collaborations that enhance healthcare solutions.

Medic East Africa 2024

Saikang Medical is thrilled to announce our participation in Medic East Africa, the premier healthcare and medical laboratory event in the East Africa region.

Join us from 4 - 6 September 2024 at the Kenyatta International Convention Centre, Nairobi, Kenya, as we showcase our latest innovations in medical technology. We look forward to connecting with you at this esteemed event!
